What Do You Want To Work?

-  Civil Servant (PNS)
-  UI Designer
-  Programmer
-  Entrepreneur

What Have You Achieved On 10 Years?

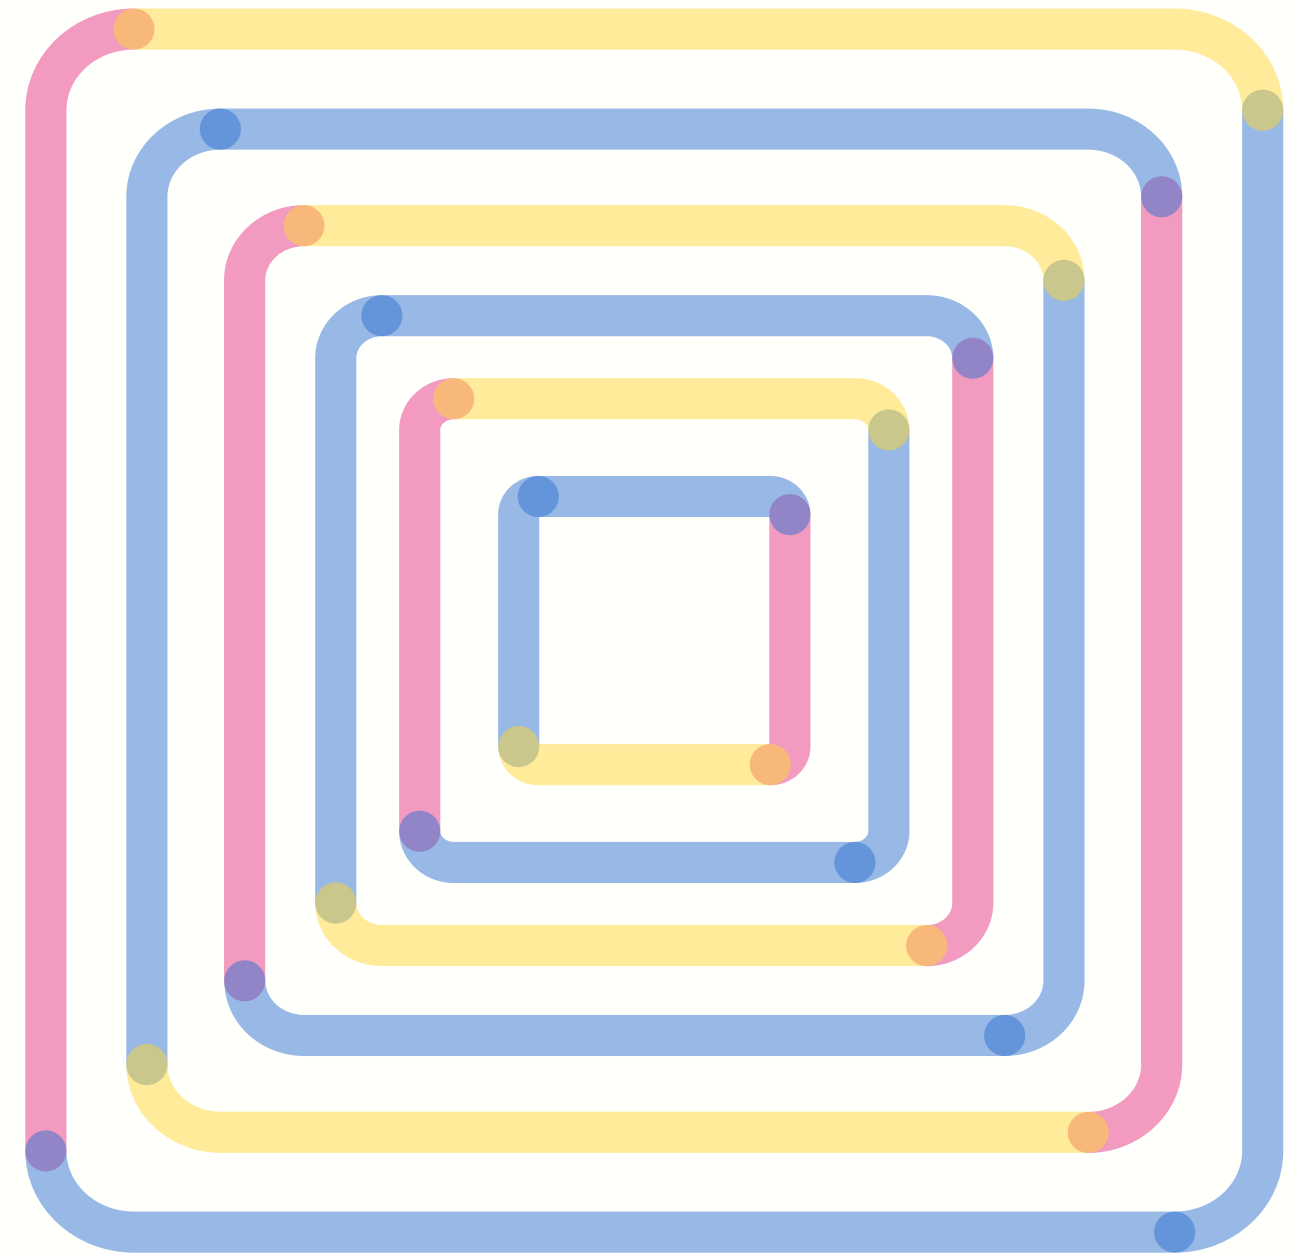

-  Become a Civil Servant
-  Have a culinary business
-  Married
-  Have a house

Where Do You Work At The Moment And What Are You Going To Get Next?

Now I'm taking an industrial internship program for 6 months in Surabaya. I don't have a permanent job yet, but sometimes I help make UI application design.

After I have a permanent job, I will save the money to be used to help in the future of my brother. Then, I wish I could buy my own house, and build a business with my husband someday.

The image features a light gray background with decorative geometric patterns in the corners. These patterns consist of multiple concentric, slightly offset hexagonal outlines in yellow, pink, and blue. Some of the lines have small circular dots at their vertices. The patterns are located in the top-left, bottom-left, and bottom-right corners, leaving the top-right corner empty.

Thank You!
